Mediums & Diluents:

- Odorless turpentine (Extra-large)
- Liquin (Winsor & Newton) or Japan Drier
- Blending Medium. *See recommended options below:*

- Gamblin Oil Medium Solvent Free Fluid Medium - extend that mission by giving oil painters alternatives that don't require the use of toxic solvents
- Grumbacher Oil Painting Medium III - quick drying
- Winsor & Newton Linseed Stand Oil - slow drying, traditional - can be mixed with turpentine
- Winsor & Newton Blending and Glazing Medium
This mixture of Damar Varnish, Linseed Oil, and mineral spirits reduces the consistency and slows the drying rate of oil and alkyd colors. It is useful as a medium for blending, glazing, stroke work, antiquing, and staining.
